Narrative: 1

I was operating my DJI Air 3S drone. During the flight, I inadvertently entered airspace that was later determined to be a restricted or no-fly zone. The entry into the restricted area was unintentional. Upon becoming aware of the airspace restriction, I immediately ceased flight operations and fully cooperated with any instructions provided by the appropriate authorities. I have since reviewed the relevant FAA

guidance, airspace maps, and flight-planning procedures to help ensure that similar incidents do not occur in the future.

Synopsis

Recreational / Hobbyist UAS pilot reported flying in restricted airspace without authorization.
